Art Unit: 1723

The following is an examiner's statement of reasons for allowance: Schick (U.S. Patent No. 4,352,780) and Japan Patent No. 2002-071657 are considered to be the closest art because Schick (U.S. Patent No. 4,352,780) discloses two loops and Japan Patent No. 2002-071657 discloses many of the claimed elements. The case has been allowed because the recited combination of elements, including the flow switching means that assumes the first and second state, would not have been obvious from Schick (U.S. Patent No. 4,352,780) and Japan Patent No. 2002-071657.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to E. Therkorn at telephone number (571) 272-1149. The official fax number is 571-273-8300.
